

Heiro S. Usana

Motivated BS Information Technology graduate with hands-on experience in front-end and mobile application development using React Native, Next.js, TypeScript, and modern web technologies. Experienced in API integration, responsive UI implementation, and database management with Supabase PostgreSQL and MySQL. Seeking opportunities to contribute strong technical and problem-solving skills in software development.

Experience

Mobile Front-End Intern | Studio Pinya

Cebu City | Nov. 2025 - May. 2026

- Built responsive mobile and web interfaces using React Native (Expo Go), Next.js, and TypeScript
- Implemented REST API integrations for authentication and data-driven functionalities
- Improved application performance, UI/UX consistency, and collaborated with developers using GitHub workflows

Full-stack Developer | Capstone Project -AshenKeep

Asia Pacific College | Mar. 2024 - Jun. 2025

- Designed user-friendly Vault Application System or AshenKeep
- Developed a secure AshenKeep system using PHP/Laravel
- Integrated responsive design principles to maintain usability across all device types

Full-stack Developer| Capstone Project- AlwaysOnTrack IoT Health-based Monitoring

Asia Pacific College | July. 2025 - Oct. 2025

- Developed a Flutter-based mobile application integrated with IoT devices for health monitoring and tracking
- Built and maintained both frontend and backend functionalities to support real-time health data management
- Collaborated with the team to design, develop, and implement features that improved system usability and performance
